# More than just a greeting card

When customers are done enjoying the message inside, these cards were created to be reused as a piece of artwork that inspires them! They can hang it on their fridge, in their office or frame it for display in their favorite room so they have a daily reminder to find joy, feel encouraged, and be kind to themselves and others, always.

## On a mission to spread kindness

In 2017, I wasn't happy with the direction of my life. Many pieces felt like they were unraveling at a rapid pace, like a ball of yarn tossed up into the air. I couldn't grasp why this was happening but it made one thing very clear – I needed more kindness in my life and I suspected others did too.

Through a leap of faith, I quit my full time job as an Art Director in Minneapolis, Minnesota to give working for myself a try, and I could not be more happy that I allowed my curiosity to conquer my fear of the unknown.

Being able to choose who I work and partner with has been incredibly rewarding and allows me to carry out my mission of spreading kindness through design, and collaborating with those who are doing the same.

**Thank you for your interest in partnering with me to spread more joy and kindness through these uplifting cards that double as an inspiring piece of artwork.**

**Cheers!**
